How it works

We will arrive roughly an hour and a half before required serving time to set up. Pizzas will be on constant rotation until all of your guests are satisfied. We cook our pizzas fresh on the night so it will typically take 2-3 hours of service, depending on the amount of guests before everyone has eaten. Cooking time is roughly 40 - 50 pizzas per hour. Service will end once we have received confirmation from the organiser on the day.

We recommend you don't have a sit down service as pizzas are cooked fresh on the night and will take a couple of hours for everybody to eat. We do not take orders on the night, we will only take orders for those with dietary requirements.

Gluten Free and Vegan options are available!

Please contact us with the expected total of guests with dietary requirements and tell these guests to come to the truck at the start of the night to place their orders.
